baling systems

Searching for solutions, developing, building and setting up of industrial installations that are reliable and profitable for the customer

Conrad VERPLANCKE

Introduction

A solid and financially healthy group of project-orientated, technology-driven companies active in:

Engineering – Recycling – Environment – Textiles – Energy

VALTECH
300 employees
70.000.000€ turnover
100% Belgian, active on
a worldwide scale!

valtech group

Introduction

CRETES:

Employees: 40,
Turnover: 9 milj. euro

- Fibre processing and handling
- Pneumatic transport and dust extraction
- Waste handling for automated production lines
- Sorting & Recycling
- Fabric handling solutions
- Biomass Handling

Valvan Baling Systems:

Employees: 100,
Turnover: 22 milj. euro

- Baling presses and additional equipment
- Sorting systems for second hand clothing

Production Lines

Waste handling for Continuous Production Lines:

Removal of production waste + Dust extraction and filtering

Evacuation towards baling press

Manipulation and wrapping of waste bales

Automatic storage in warehouse (bale robot)

Waste transport

Mechanical transport with belt conveyors, chain conveyors, etc.

Cretes

valvan
baling systems

Waste transport

Pneumatic transport of waste (by means of an air flow)

- Heavy duty transport fans
- Specially designed switch and shutter valves
- Various types of air separators ("condensers")

Waste transport

Ductwork with switch valves, branches, reductions, dampers, shutter valves, ionisation, ...

→ Steel: Galvanised, Painted, Powder Coated

→ Stainless steel

→ In various shapes and thicknesses

Waste Baling presses

Bale Evacuation

B. Evacuating

A. Pressing

C. 1st Wrapping

D. 2nd Wrapping

E. Removal

F. Automatic manipulation

Warehouse

Cretes

valvan
baling systems

valtech
group

Filters

Automatic filters

- Modular design
- Various possibilities (gangway, inspection hatches, sprinkler, leak detection, etc.)

Turnkey Solutions

Complete systems including electrical controls

But also:

Study and Engineering

Mounting on site

Start up

Commissioning

Assistance during First Production Runs

Training of Operators and maintenance crews

Service after Sales

Turnkey Projects

Example
corrugated
box plant

Turnkey Projects

Example
Hygiene
production
trimwaste

Turnkey Projects

Example
Miniral wool
production
